

The Town of Rolling Hills is host to a large, grassy park located at 38 South Badger Road. The park has playground equipment, a picnic shelter, basketball hoops, disc golf, the Neos systems (way cool!) and a restroom.

You can also find a bike / walking path that runs the length of the town, and a bridle trail for our four-legged friends on opposite side of 55 Ranch Road. Walk in the early mornings or late evenings with the decorative pathway lights that were installed in 2013! There are also permanent work-out stations found along the bike path for those wanting to add a few reps to their walking routine.

If you would like to walk the town loop, a new pathway was constructed along Roundup Road to the west for non-motorized use.

We welcome ideas for new park equipment and recreation!
